Fashionable Friends. The hardest trial of those who fall from affluence and honor to provery and obscurity, is the discovery that the attachment of so many in whom they confided was a pretence, a mark to gain their own ends, or was a miserable shallowness. Sometimes, doubtless, it is with regret that these frivolous followers of the world desert those upon whom they have fawned; but they soon forget them. Flies leave the kitchen when the dishes are empty. The parasites that cluster about the favorite of fortune, to gather his gifts and climb by his aid, linger with the sunshine, but scatter at the approach of a storm, as the leaves cling to

the first sound of calamity, these superficial earthlings are specks on the horizon! But the true friend sits in the center, and is for all times. Our need only reveals him more fully, and binds him more closeunadulterated affection, more deeds of sisupposed. Our misfortunes bring to our side real friends, before unknown. Benpect them, in modest privacy, enact, many a scene of beautiful wonder, and plaudies tual and possible prevalence of the friendly sentiment, we must cheerily strike the lyre and lift our voice to the favorite song, confessing after every complaint is ended,

"There is a power to make each hour As sweet as heaven designed it; Norneed we roam to bring it home, Though few there be to find it! We seek too high for things close by, And lose what nature found us: For life hath here no charms so dear As home and friends around us." [North American Review.

A Bloody Tragedy at Jefferson A correspondent of the St. Louis Bulletin writing from Jefferson on the 17th inst. says: "This city was thrown into a state of wild excitement by the commission of a fearful and horrible double murder .-Messrs. James Hughes, warden of the penitentiary, and S. Dozier met in the street, and mutually interchanged some words which were deemed offensive to one another. Mr. Dozier struck Mr. Hughes in the face and fired a pistol at him. Before they came together in a regular fight they were separated by friends. They met again at Wagner's saloon, when they simultaneously fired several shots at one another, and entered the saloon, where Hughes inflicted a mortal stab upon Dozier who expired in less than five minutes .-

Hughes was shot and died instantly." Mr. Hughes was not the chief warden, we believe, but a relative of Car. Hughes. of this city, whose assistant he was. It is rarely that we have recorded so sanguinary and fatal an encounter.
